

NEWS RELEASE

The Town of Wytheville's Sanitary Sewer Inflow and Infiltration Rehabilitation Project is beginning. Citizens can expect to see an increase in utility marks in and around property lines, road rights-of-way, alleyways and through existing utility easements. Citizens may also see large trucks and equipment performing inspections, cleaning and making repairs in these areas over the next six (6) to seven (7) months. If you have any questions, please contact Director of Public Utilities and Engineering Billy Anderson at (276) 223-3342 or via email at billy.anderson@wytheville.org.
